★★★★★

"This was the first time ever having to replace any major equipment. Truly an A+++++ experience."
~ B.L. from Elkton, MD

FUELING YOUR BUSINESS
24/7 FUELING AVAILABLE

COMMERCIAL FUELS

Simple & Fast Bulk Fuel Delivery!

DELIVERING COMMERCIAL FUELS DIRECT TO YOUR JOB SITE TO SAVE YOU TIME AND MONEY AND INCREASE EFFICIENCY.

Agriculture Fueling

We deliver quality fuels, including off-road and on-road diesel, gasoline, and heating oil, in both small and large quantities, ensuring timely service for agricultural operations.

Commercial Fueling

We provide on-site fueling for fleets, equipment, tanks, and generators—saving businesses money, improving efficiency, and reducing the risk of fuel theft. Our petroleum products and flexible fueling options meet your needs at affordable prices.

Generator Fueling

In emergencies such as blackouts, storms, or floods, we deliver commercial-grade diesel fuels to keep industrial and commercial generators running. We serve critical facilities like hospitals, data centers, grocery stores, manufacturing plants, and food processing operations, ensuring backup power is available when it's needed most.

Fleet Fueling Island & Top-Loading Rack System

With a storage capacity of 220,000 gallons, our "tank farm" allows us to resell fuels at a few cents over market price to customers with top-loading tank trucks. Our card-accessible fueling island in Newark, DE is accessible 24 hours a day, 7 days a week, and offers both on-road and off-road diesel at prices consistently better than local truck stops and other fleet fueling facilities, ensuring the best value with no distractions. Construction, landscaping, and excavating companies with their own fueling trucks can save significant amounts by fueling at our location.

Fuel Tank Sales & Leasing

We provide tanks ranging from 500 to 3,000 gallons, offering the ultimate convenience for fueling your fleet or equipment directly at your home base or job site. Fuel tanks can be equipped with modern pumping and metering systems for accurate record-keeping, or more affordable manual pumping systems, depending on your needs. On-site fueling can save your business money and increase your team's efficiency.

Hillside Oil Heating & Cooling has been a trusted provider of commercial fuels to businesses in Delaware, Maryland, and Pennsylvania for over 70 years. We offer bulk delivery of On-Road and Off-Road Diesel, Ultra-Low Sulfur Diesel, and Gasoline to help fuel your fleet, generators, and equipment. In addition, we are the ONLY oil company in New Castle County offering a 24/7 accessible fueling island and top-loading rack system with diesel fuels and heating oil for resale at competitive market prices.
